I assumed responsibility as treasurer for "Bruce Peller For Congress" on April 18, 2012. Prior to that date Christopher Day Church Jr. Had been treasurer. The campaign committee had been advised by Mr. Church that we were in compliance and that no reports were past due. On April 18, 2012 it was discovered that a report was, in fact, past due. The report was compiled and mailed the next day.

On April 18, it was also discovered that Mr. Church had been both writing unauthorized checks from the campaign checking account, and also transferring money electronically to his personal banking account. Mr Church was fired and the incident was immediately reported to the Winston-Salem Police Department. The matter is currently under investigation by the police department. The matter was also reported to the F.B.I., although they did not open an investigation.

Reports have been filed electronically, and to the best of my knowledge, they are accurate and up to date. The 12 day pre-primary report was filed on time.

Sincerely,

Paula Henao
